

COLOR STABILITY TEST AUTHORIZATION FORM

As of 15 Oct 2019 AGL is performing color stability tests on sapphires that fall in specific color ranges of:

Yellow to Orange, Padparadscha to Pink, Colorless and Near Colorless

There is an additional \$50 fee per stone added to the testing service. Please check the applicable line(s) giving AGL permission to conduct a stability test on your item(s).

_____ **Gembrief:** Please do stability test. Fee: \$70 + \$50 = \$120 USD total **

** Note: Any stone submitted for a Gembrief exhibiting a color shift will automatically be upgraded to the Prestige ID report and charged accordingly.

_____ **Prestige ID:** Please do stability test. Fee: \$160 + \$50 = \$210 USD total

_____ **Prestige Origin:** Please do stability test. Fee is based on size and add \$50:

Carat Weight:

0.50 – 2.99 cts: \$230	10.00 – 19.99 cts: \$550
3.00 – 9.99 cts: \$390	20 cts & up: \$720

For clients who do not wish to give AGL permission to conduct a color stability test, please check the following:

_____ **I do not authorize the color stability test ****

**** In these cases, reports will have the following comment:** “A color stability test was not performed on this stone.”
